If the Offering closes in more than one tranche, the date of the final closing (the **Closing Date**) will apply to all Units issued under the Offering.

Each CS Unit will consist of one common share in the capital of the Company (each, a **Common Share**) and one Common Share purchase warrant (each, a **CS Warrant**). > Dr. Vern Rampton, President & CEO of the Company stated, "***We will be using most of the FT funds to delineate more deposits in the Anderson Gold Trend and refine the many drill targets that we have already defined. Some inverse mag will be completed to define prospective igneous sources for mineralization on all three properties. This will allow us to focus on drilling well delineated Reduced Intrusion-Related Gold Deposits on the Anderson Gold Trend next summer."***

The net proceeds from the sale of CS Units will be used primarily for working capital, property acquisitions and general operating costs. The gross proceeds from the sale of FT Units will be used to incur eligible "Canadian exploration expenses" that qualify as "flow-through mining expenditures", as both terms are defined in the Tax Act, on the Company's Anderson-Davidson, Carlin-Roop and Edmonton properties in the Yukon. The Company will renounce such expenditures to subscribers of FT Units with an effective date no later than December 31, 2026.

All securities issued in connection with the Offering will be subject to a statutory hold period of four months and one day from the applicable date of issuance in accordance with applicable Canadian securities laws. Closing of the Offering is subject to certain conditions, including, but not limited to, the receipt of all necessary corporate and regulatory approvals, including the approval of the Canadian Securities Exchange.
