Mayo Lake Minerals Inc.

Notes to Condensed Interim Financial Statements

Six months ending June 30, 2024

1. Nature of business

Mayo Lake Minerals Inc. (referred to herein as the "Company") is an exploration stage junior mining company that was incorporated on September 7, 2011 under the laws of Ontario, Canada. The Company is engaged in the identification, evaluation and exploration of mineral properties in Yukon, Canada. The Company has not yet determined whether any of its properties contain mineral resources that are economically recoverable. The recoverability of any amounts recorded for mineral exploration properties and deferred exploration expenditures is dependent upon the discovery of economically recoverable resources, the ability of the Company to obtain necessary financing to complete the development of these resources and upon attaining future profitable production from the properties or sufficient proceeds from the disposition of the properties.

The Company became a reporting issuer on December 15, 2021 with its registered office at 110 Westhunt Drive, Unit 2, Carp (Ottawa), Ontario, Canada. The Company became listed on the CSE on May 5, 2022.

2. Going concern

The Company is an exploration stage company. At present, its operations do not generate cash flow. The Company incurred a net loss of \$598,377 during the six months ended June 30, 2024 (June 30, 2023 - \$410,100) and, as of that date, its accumulated deficit was \$4,585,547 (December 31, 2023 - \$3,987,170) and its working capital stood at a deficiency of \$476,873 (June 30, 2023 – deficiency of \$421,352).

The Company's ability to continue as a going concern in 2024 and beyond is dependent on its capacity to obtain adequate financing on reasonable terms from investors and lenders in order to explore and develop its assets; and to commence profitable operations in the future. Although the Company has been successful in raising funds in the past, there is no assurance that it will be able to successfully do so in the future. These factors indicate the existence of material uncertainty which may cast some doubt on its ability to continue as a going concern in the future. After reviewing the current cash position and having considered the Company's ability to raise funds in the short term, the directors have adopted the going concern basis in preparing its financial statements.

The ability of the Company to recover the costs it has incurred to date on exploration and evaluation is dependent upon it being able to identify a commercial ore body, finance further exploration and development costs and to resolve any environmental, regulatory, and other constraints which may hinder the successful development of its assets.

The accompanying financial statements do not include any adjustments relating to the recoverability of assets and to the reclassification of asset and liability amounts that might be necessary should the Company be unable to continue its operations. Such adjustments could be material.

Mayo Lake Minerals Inc.

Notes to Condensed Interim Financial Statements

Six months ending June 30, 2024

3. Basis of presentation, critical accounting, judgements and key estimation uncertainties

Basis of presentation

These unaudited condensed interim financial statements have been prepared in accordance with IAS 34 - Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures included in the annual financial statements prepared in accordance with IFRS as issued by the IASB have been condensed or omitted and these unaudited condensed interim financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2023.

These condensed interim financial statements were approved by the Board of Directors on August XX, 2024.

The accounting policies applied in the preparation of these unaudited condensed interim financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the year ended December 31, 2023 and as discussed below.

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively. The critical judgments and estimates applied in the preparation of the Company's unaudited condensed interim financial statements are consistent with those applied and disclosed in Note 2 of the Company's audited financial statements for the year ended December 31, 2023 and as discussed below.

Functional and presentation currency

These financial statements are presented in Canadian dollars, which is the Company's functional currency. All financial information is expressed in Canadian dollars unless otherwise stated and have been rounded to the nearest dollar.

Critical accounting estimates and judgments and key estimation uncertainties

The preparation of the financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes may differ from these estimates. Revisions to accounting estimates, or changes to judgments, are recognized in the period in which the estimate is revised and may affect both the period of revision and future periods.

Significant assumptions that management has made about current unknowns, the future, and other sources of uncertainty, could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made.

Critical accounting estimates

Critical accounting estimates are estimates and assumptions made by management that may result in a material adjustment to the carrying amounts of assets and liabilities within the next financial year and include but are not limited to, the following:

Mayo Lake Minerals Inc.

Notes to Condensed Interim Financial Statements

Six months ending June 30, 2024

3. Basis of presentation, critical accounting, judgements and key estimation uncertainties (continued)

Share-based payments and share purchase warrants - The fair value of share-based payments and compensation is subject to the limitations of the Black-Scholes option pricing model that incorporates market data and involves uncertainty in estimates used by management in the assumptions. Because the Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share prices from similar types of companies, changes in subject input assumptions can materially affect the fair value estimate. The Black Scholes model incorporated inputs such as the risk-free rate, volatility by reference to comparable companies, estimated life and forfeiture rate.

Critical accounting judgments

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements include, but are not limited to, the following:

Recoverability of mineral exploration and evaluation assets – The assessment of impairment of mineral exploration and evaluation assets requires judgment to determine whether indicators of impairment exist including factors such as, the period for which the Company has the right to explore, expected renewals of exploration rights, whether substantive expenditures on further exploration and evaluation of mineral property interests are budgeted and results of exploration activities up to the reporting date. The Company has determined that there are no indicators of impairment.

Deferred Taxes – Until such time as the Company has relative certainty with respect to future profits, both deferred tax assets and liabilities are not recognized.

Mayo Lake Minerals Inc.

Notes to Condensed Interim Financial Statements

Six months ended June 30, 2024

4. Mineral exploration and evaluation assets

A summary of the changes in exploration and evaluation assets is presented below for the periods ending June 30, 2023, December 31 2023 and June 30, 2024.

	Anderson- Davidson	Edmonton	Cascade	Carlin- Roop	Trail-Minto	Total
Balance, December 31, 2022	\$ 1,970,559	\$ 489,627	\$ 66,859	\$ 2,647,921	\$ 649,972	\$ 5,824,938

Yukon Property Acquisitions

The Company entered into binding letter agreements with European Ventures Inc. (European), a related company, in December of 2011 (amended in July 2014) for the acquisition of the Anderson, Davidson and Edmonton Creek claim groups and in February 2012 for the acquisition of the Roop and Trail-Minto claim groups and April 2012 for the Carlin claim group. The vendor retained a 2.75% net smelter return royalty (NSR) on the Anderson, Roop and Trail-Minto claim groups and a 2.5% NSR on the Davidson and Edmonton and Carlin claim groups. The NSRs are subject to a 1% buyback.

All of the NSR buybacks are applicable at any time up to commercial production. Any full 1% NSR can be bought back for \$1M if gold is at \$1,000 per ounce or less; \$2M if gold is at \$3,000 per ounce or more with a sliding scale between \$1,000 and \$3,000 per ounce. A buyback can be exercised in increments of 0.5%.

Mayo Lake Minerals Inc.

Notes to Condensed Interim Financial Statements

Closing balance – December 31, 2023	\$ 13,547
Issuance of flow through shares	-
Flow through premium recovery	-
Closing balance – June 30, 2024	\$ 13,547

6. Demand notes payable

The Company issued a promissory note in the amount of \$25,000 on September 2, 2021 bearing interest at the rate of 1.5% per month. Both the principal and interest originally due on June 30, 2023 has been extended to June 30, 2025. The note may be prepaid at the option of the Company.

Opening balance – January 1, 2023	\$ 31,000
Accrued interest	2,250
Interest paid	(3,000)
Closing balance – June 30, 2023	\$ 30,250
Accrued interest	2,250
Closing balance – December 31, 2023	\$ 32,500
Accrued Interest	2,250
Closing balance – June 30, 2024	\$ 34,750

Interest of \$2,250 (2023 - \$2,250) on the promissory note was expensed during the six-month period ended June 30, 2024.

7. Government Assistance

On July 23, 2020, the Company received the Canadian Emergency Business Account (CEBA) in the amount of \$40,000. On December 22, 2020, the Company received the CEBA top-up in the amount of \$20,000. CEBA is a government program providing interest-free loans to small businesses. Repaying the balance of the loan on or before December 31, 2023 would have resulted in loan forgiveness of 33 percent (up to \$20,000). The Company had the possibility to apply for an extension to March 28, 2024. Since it did not receive such an extension, the loan was converted to a term loan maturing on December 31, 2026, bearing interest at 5% per annum. The Company will only be required to pay monthly 5% interest on the full outstanding balance.

Mayo Lake Minerals Inc.

Notes to Condensed Interim Financial Statements

Six months ended June 30, 2024

8. Related party transactions and key management compensation

The Company has contracts for management and geological services provided by key management, namely officers, administrators and directors of the Company either directly or indirectly through companies controlled or influenced by them. In addition, key management or their related companies may hold positions in other entities that result in them having control or significant influence over the financial or operating policies of those entities. Transactions are recorded at their fair value as agreed between all parties.

- Dr. Vern Rampton, President and CEO, provides management services to the Company through Rampton Resource Group Inc. ('RRG'), his personal services corporation. RRG also provides accessory office facilities plus an office manager/bookkeeper through contracts negotiated within consideration of competitive prices. All expenses are passed through to the company at minimal mark-up.
- Tyrell Sutherland, Vice-President Exploration, provides management & geological services to the Company through Sans Peur Exploration Services Inc. his solely owned personal services corporation.
- Darrell Munro, Corporate Administrator, provides investor relations and administrative services through his sole proprietorship.
- Andre Rancourt, CFO, provides accounting services through his sole proprietorship.
- Lee Bowles, Manager Business Development, provides financial & advisory services through Ironstone Capital Corporation Inc. his personal services corporation.

Related party promissory notes.

Opening balance – January 1, 2023	\$ 235,446
Repayments of notes	(16,075)
Accrued interest	9,077
Fair value expense	10,800
Closing balance – June 30, 2023	\$ 239,248
Repayments of notes	(3,635)
Issuance of notes	33,000
Accrued interest	5,311
Fair value adjustment	-
Closing balance – December 31, 2023	\$ 273,924
Repayment of notes	(123,452)
Payment of interest	(29,838)
Accrued interest	8,575
Closing balance – June 30, 2024	\$ 129,209

- On June 18, 2021 the Company issued a series of promissory notes totalling \$101,000 bearing interest at 6% per annum to certain members of the management team in lieu of payment for services rendered. A total of \$16,000 of the principal was repaid in 2022 and \$5,000 in May of 2024. The remaining principal totalling \$80,000 plus interest originally due on June 30, 2023 has been extended to June 30, 2025.
- European Ventures Inc. ('European') was formerly designated as an insider, having previously held more than 10% of the outstanding shares of the Company. It has periodically provided credit to the Company. On October 31, 2022 European Ventures Inc. relinquished its status as an insider when its shareholdings fell slightly below 10% of the Company's outstanding shares.
- The President and CEO through his wholly owned corporation Rampton Resource Group Inc. and the Company's Corporate Administrator provide services to European Ventures Inc. ('European').

Mayo Lake Minerals Inc.

Notes to Condensed Interim Financial Statements

Six months ended June 30, 2024

8. Related party transactions and key management compensation (continued)

- The President & CEO and two directors of the Company are also the sole directors of European.
- On November 12, 2021, the directors passed a resolution approving the borrowing of up to \$150,000 from European at a rate of 10% per annum.
- On July 21, 2022 the Company awarded 3,990,000 incentive options to management, directors, consultants and contractors. Each option is exercisable into one common share at \$0.15 for a period of 5 years from the date of issuance. The options vest in three equal segments of 1,330,000 (August 1, 2022, August 1, 2023 and August 1, 2024).
- On September 30, 2022 the Company awarded 930,158 options exercisable at \$0.15 for a period of 3 years from the date of issuance and 628,699 Restricted Share Units (RSUs) to management, directors, consultants and contractors for their dedication to the company and more specifically to supplement their compensation for fiscal 2021 as well as the period up to the Company's public listing in May of 2022. Both the options and RSUs vest in three separate equal segments, namely January 30 of 2023, 2024 and 2025.
- On December 12 and December 18, 2023, the Company issued 2 promissory notes of \$18,000 and \$15,000 respectively bearing interest at the rate of 1% per month, payable to the President and CEO of the Company. Both the principal and interest were originally due and payable on April 12 and April 18, 2024 respectively and have been extended to June 30, 2025.
- On May 3, 2024 the Company issued of a total of 4,333,631 options to certain officers, employees and consultants (Recipients) of the Company in lieu of cash compensation as part of its ongoing efforts to incentivize its personnel without depleting cash resources. These options were related to performance of the Recipients for the period beginning July 1, 2022 and ending December 31, 2023. Each option is exercisable into one common share at a price of \$0.10 for a period of 5 years from the date of issuance. Two independent directors of the Company were awarded a total of 502,200 Deferred Share Units (DSUs); each Unit will vest in the name of the grantee on his retirement from the board and automatically be converted into one common share. The Company's independent directors do not receive cash compensation.
- Interest expense on the amounts due to related parties during the six months ending June 30, 2024 totalled \$8,575 (June 30, 2023 - \$9,077).

Compensation to related parties for period ended June 30,	2024	2023

Stock Options

The Company's Stock Option Plan provides supplemental compensation to directors, officers, employees and service providers. The number of options available for issuance at any one time is subject to a maximum of 10% of the total number of issued and outstanding common shares. All issuances, including the vesting and exercise periods are designated by the Board.

On July 21, 2022 the Company awarded 3,990,000 incentive options to management, directors, consultants and contractors. Each option is exercisable into one common share at \$0.15; valid for a period of 5 years from the date of issuance. They vest in three separate equal segments of 1,330,000 (August 1, 2022, 2023 and 2024). Each tranche is expensed over its complete vesting period.

The fair value of all options was estimated of the date of grant using the Black-Scholes option pricing model with the following assumption: Risk free interest rate 2.96%, a volatility based on comparable companies of 93.68% with an expected option life 5 years.

On September 30, 2022 the Company awarded 930,158 incentive options to management, directors, consultants and contractors. Each option is exercisable into one common share at \$0.15; valid for a period of 3 years from the date of issuance. They vest in three separate equal segments of 310,053 (January 30, 2023, 2024 and 2025). Each tranche is expensed over its complete vesting period.

The fair value of the options was estimated as of the date of grant using the Black-Scholes option pricing model with the following assumption: Risk free interest rate 3.55%, a volatility based on comparable companies of 106.5% with an expected option life 3 years.

Mayo Lake Minerals Inc.

Notes to Condensed Interim Financial Statements

Six months ended June 30, 2024

9. Capital stock (continued)

On May 3, 2024 the Company issued of a total of 4,333,631 options to certain officers, employees and consultants (Recipients) of the Company in lieu of cash compensation as part of its ongoing efforts to incentivize its personnel without depleting cash resources. Each option is exercisable into one common share at a price of \$0.10 for a period of 5 years from the date of issuance.

The fair value of the options was estimated as of the date of grant using the Black-Scholes option pricing model with the following assumption: Risk free interest rate 3.651%, a volatility based on comparable companies of 93.68% with an expected option life 5 years.

Restricted Share Units (RSUs) and Deferred Share Units (DSUs)

The Company's Restricted Share Unit and Deferred Share Unit Plan (Plan) is used to compensate participants for their contribution to overall corporate performance as either a supplement to or substitute for stock option awards. The fair market value and vesting schedule of the RSUs are determined at the time of the grant. Under the Plan, the vesting date for RSUs shall be no later than the third anniversary of the date of grant and all share issuances in respect of the vested units shall be processed before the end of the particular calendar year. Non-vested RSUs are automatically forfeited if the grantee voluntarily leaves employment with the Company. Upon vesting, RSUs are converted into common shares from treasury on a one for one basis.

On September 30, 2022 the Company awarded 628,699 Restricted Share Units (RSUs) to management, consultants and contractors. The RSUs were designated to vest in three separate equal segments, namely January 30 of 2023, 2024 and 2025. Each tranche is expensed over the full vesting period.

DSUs are used as a means of reducing the cash payable to independent directors. A DSU is a notional share that has a fair market value as determined at the grant date. DSUs are converted to common shares and paid out to directors when they retire from the Board.

On May 3, 2024, two independent directors of the Company were awarded a total of 502,200 Deferred Share Units (DSUs); each Unit will vest in the name of the grantee on his retirement from the Board and automatically be converted into one common share. Mayo's independent directors do not receive cash compensation.

10. Capital management

The Company manages its capital to support the acquisition, exploration and development of mineral properties. The Board of Directors relies on the expertise of the Company's management to sustain the future development of the business subject to the review of the Audit Committee and the Board as a whole.

Like others in the mineral exploration sector, the Company is heavily dependent on equity financing for its capital needs and currently has a recorded deficit in the amount of \$4,585,547 (December 31, 2023 - \$3,987,170 and shareholders equity of \$5,102,661 (December 31, 2023 - \$4,969,838).

The Company's objective is to obtain adequate levels of funding to support an optimal level of exploration activities combined with suitable administrative operations. The Company raises capital, when necessary or opportunistic and consequently does not have a numeric target for its capital structure. Funds are primarily secured through private placements consisting of Common Share Units and Flow Through Units, supplemented with debt when necessary. There can be no assurance that the Company will be able to continue raising capital in this manner.

The Company reviews its capital situation on an ongoing basis which it considers reasonable given its relative size.

There were no changes in the Company's approach to capital management in the year.

Mayo Lake Minerals Inc.

Notes to Condensed Interim Financial Statements

Six months ended June 30, 2024

11. Financial instruments and risk management

Fair value

The carrying values of the Company's financial instruments approximate their fair values due to their short-term maturity.

Credit risk

The Company is at risk if a counter party to a financial instrument fails to meet its payment obligations insofar as the Company's receivables are concerned.

Liquidity risk

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they fall due.

The Company's liquidity and operating results may be adversely affected if its access to capital markets is hindered, whether as a result of a downturn in stock market conditions generally or matters specific to the Company. It has historically generated cash from its financing activities. As outlined in Note 9, as at June 30, 2024, the Company's current liabilities which comprise accounts payable and accrued liabilities, demand notes payable and obligation due to related parties total \$506,227. Consequently, the Company will require significant additional funding to maintain its operations.

Covid-19

Since December 31, 2019, the spread of COVID-19 has severely impacted many local economies around the globe. Conditions have generally improved; however subsequent mutations and intermittent waves of the virus continue to be a threat to operations. It is not possible to reliably estimate the duration and severity of the consequences of COVID-19, as well as the future impact on the financial position and results of the Company .

Market risk

Market risk may arise from changes in financial conditions such as interest rates, foreign exchange rates and commodity prices. The Company is not currently exposed to any significant interest rate risk volatility or exchange rate volatility.

12. Subsequent events

On July 15, 2024 the Company SEDAR filed the materials for its 2023 Annual General & Special Meeting scheduled for August 15, 2024 in Carp.

On August 15, 2024 the Company held its Annual General & Special Meeting where shareholders passed unanimous resolutions returning all four directors and approving Jones & O'Connell LLP as auditor. Arm's length shareholders overwhelmingly approved the Company's Stock Option Plan as well as its Restricted Share Unit & Deferred Share Unit Plan.
